

# How I Made Him Grin

By: Teagan Penso <sup>the</sup> great

I'm crazy! I tried to make the grumpiest greediest creature grin. First I made the Grinch some chewy bacon with glass on top. He glanced at it and said. It was too chewy. "Nice try Kid," he said in a low exhausted voice for it was only 8:00<sup>am</sup>. Next I made the Grinch a cup of cold hot chocolate with a depressed face design. But he stirred up the small sad face and dumped it down the drain of the sink. It worked! It worked! I got the Grinch to smile by giving Him a box of compost and

A hat for Max. He actually giggled and let out a long exasperated sigh but after that he smiled.

It was really really hard but I helped the Grinch smile!
